

DIGVIJAY JENA

B. TECH – CSE – Final Year

 **DOB: 16 June 2003**

ACADEMICS

B. Tech (CSE) (8.15 CGPA)

Vellore Institute of Technology
VIT
2021-2025

XII (95.4 %)

Presidium Indirapuram
C.B.S.E
2020-2021

X (96.0 %)

Presidium Indirapuram
C.B.S.E
2018-2019

KEY MODULES

- Compiler Design
- Design Analysis of Algorithms
- Operating Systems
- Computer Networks
- Discrete Mathematics
- Database Management System

INTERESTS

Sports

Coding

Blog Writing

Math Enthusiast

Problem Solving

Fitness Enthusiast

Music

ABOUT

- Passionate and dedicated individual with hands on experience in software & web development and having a deep interest in AI & ML
- Skilled in Agile methodologies, version control & keen about solving real world problems with smart technology

INTERNSHIP

CDAC | Web Development Intern

May'24 – Jul'24

- Website improvement: Frontend Web Development, Backend Web Development, React, JavaScript

SP Institute of Workforce Development | Java Development Intern Aug'23 – Oct'23

- Research project on back-office assessor module in Java technology
- Used frontend web development languages like HTML, CSS, JS and back-end languages like PHP

PROFESSIONAL SKILLS

- Proficient in programming languages: Java, C++, C#, Python, R, MATLAB
- Strong understanding of data structures, algorithms, and object-oriented programming
- Experience with web development technologies (HTML, CSS, and JavaScript) and frameworks (React)
- Familiarity with database management systems and SQL
- Knowledge of software development methodologies and tools (Git, Agile)

CERTIFICATIONS & SPECIALIZATION

Artificial Intelligence | Introduction to AI by IBM

- Completed a mini project by exploring use cases & applications of AI, understanding the AI concepts in terms of ML, deep learning & neural networks.

Data Science | What is Data Science by IBM

- Understood how companies leverage data using data science for their business

Tools of Data Science | Tools for Data Science by IBM

- Got hands-on experience with the tools hosted in the cloud on Skills Network Labs, ran simple codes in Python & R & created a final project.

Machine Learning | Introduction to ML by University of California

- Achieved foundational understanding of Machine Learning models & their applications in various industries

Machine Learning Specialization by Stanford University

- mastered key concepts such as supervised and unsupervised learning, model evaluation, and practical implementation using Python and TensorFlow

ACADEMIC ACHIEVEMENTS

- Among Top 10 in Class 10th of Presidium Indirapuram
- Among Top 10 in class 12th of Presidium Indirapuram
- 3000 Rank in French National Olympiad

POSITION OF RESPONSIBILITY

- Member – Aerospace Club at VIT
- Content Writer – CYSCOM at VIT

EXTRA-CURRICULAR

- 6-year Diploma in Tabla playing
- State Level Table Tennis Player
- Karate Black belt holder
- Abacus State Level Silver Medalist
